

Festival of Trees 2018, was a success. It is always heartwarming to see the support Good Neighbor Society has from people who believe in what we do, as much as we believe in what we do.

The 2018 FoT tables and chairs project impacts each person who sits for a meal, shares in conversation, or engages in recreational activities. With our tables and chairs being used multiple times a day for 15+ years the structure of the chairs are weakening and the tables are beginning to wobble. We cannot wait to get our new tables and chairs, so our residents and guests can feel more confident transitioning themselves safely.

Thank you for your contribution to FoT 2018. We are grateful to have your support.
