

COVID-19 NOTICE

Due to information provided by the Iowa Health Care Association we are updating our visiting policy per their recommendations. COVID-19 (Coronavirus) is extremely dangerous for our residents. The World Health Organization estimating the mortality rate at 21.9% for those over 80, and higher for those over 80 with underlying health conditions. We are following Centers for Disease Control and Prevention (CDC) to try and help prevent COVID-19 from entering the facility.

Currently, we request that family and friends do not visit the **Good Neighbor Society Campus**. Out of an abundance of caution, we are limiting all visitors to our facility unless necessary. We understand that connecting with your loved ones is incredibly important, and there are a variety of other ways you might consider communicating with them.

These options may include telephone, email, text, video chat or social media. Please reach out to Alaina Lynch as she will serve as the Communication Director in this process.

If you believe a visit to Good Neighbor Society is necessary, we request that you use the MAIN ENTRANCE between the hours of 9-5pm M-F and 10-3pm on weekends. You also be required to immediately preform our protocol.

Thank you for your assistance with keeping our residents healthy!
